Good points Forrest, thanks. I'll make the comments you recommend here and I agree, we can discuss specific details today.

Thanks,
Katie

Subject: Re: Fw: NM nutrient QAPP

Katie -

Thank you for providing the QAPP for review. I see nothing of great significance that isn't easily fixed based on comments as notated in the doc provided. Regarding the more administrative side of this project, some of the text unfortunately gives me the point of contact the authority to provide technical direction to the contractor which is obviously incorrect and needs to be amended to reflect that all direction will be provided by you as the TOM. Additionally, since both Charlie and I are simply the regional points of contacts, and while we may be reviewing the QAPP and other contract deliverables, the ultimate approval resides with you and thus we shouldn't be on the signature pages.

The other comments provided as not surprising but perhaps would be best discussed during today's conference call with Tetra Tech since it deals with more the project itself and what they ultimately will deliver.
